SUCCESSFULLY IMPLEMENTING SEXUAL OFFENDER TREATMENT AND MANAGEMENT: WHAT IS HELPING AND WHAT IS HINDERING?

Conference President and Chair of the Local Organizing Committee:
Ilona Laurinaitytė, Vilnius University

On behalf of the Scientific and the Local Organizing committees, we invite you to the 15th Conference of the International Association for the Treatment of Sexual Offenders (IATSO) to be held in Vilnius (Lithuania) from August 28th to 31st, 2018. We are honored that it is the first time the IATSO conference will take place in an Eastern European country.

The conference topic "Successfully Implementing Sexual Offender Treatment and Management: What is Helping and what is Hindering?" is aiming to continue the debate about challenges and opportunities in treatment and management of sexual offenders. Like surgery, which can only be successful in a certain environment, also sexual offender treatment and management needs specific or even unique conditions to be effective. Discussions are necessary about which legal and societal circumstances as well as which clinical environments we need to implement as effective treatment and management strategies as possible. Therefore, the current IATSO conference in Vilnius is aiming to share and discuss evidence-based research, approaches and best practices in the field as well as to create framework conditions supporting effective strategies for policy makers.

Vilnius is the Capital of Lithuania, which is rich in architecture, historical monuments, culture heritage, thematic festivals, and entertainments. Vilnius University, founded in 1579, prides itself on being the oldest higher education institution in the country and among the oldest in Eastern Europe. We look forward to welcoming you to Lithuania and to a conference that promises to be a great scientific and social event.
